## Trousers with ARC protection

Are you looking for light and comfortable trousers that protect you from heat and metal splashes at the same time? The Varese, made from an inherently flame-retardant, breathable and supple fabric with moisture-regulating properties, is exactly what you are looking for. It is anti-static, offers arc protection and is resistant to shrinking and pilling. With five pockets and knee pockets for knee protection, this is a very functional pair of trousers.
